Gentlemen:

Enclosed you will find copy of the title page  
of the first volume of a book I have, and regarding  
which I would like some information.

I have volumes one and three, volume two being  
and which I would like to secure if possible.

The volumes are Folios and run about 400 pp  
each, being profusely illustrated with copper-plate  
engravings of the various coinages.

I am referred to you by Mr W H Cathcart of  
the Western Reserve Historical Society of this city.

Any information as to the value of the books,  
or suggestions as to where I might find the missing  
volume, will be gratefully received.

very truly yours,

Dear Sir:

Your letter of August 21st is at hand and your accurate description permits me to recognize a set which we have here in our Library. I find these three volumes quoted in 1905 by Hierseman at 25 Marks for the set, or roughly a little over \$2.00 per volume. Under the circumstances the chances for picking up your missing volumes are very slight. You might write either to I. W. Hierseman, 29 Koenig Strasse, Leipsig or Joseph Baer, 6 Hoch Strasse, Frankfurt A. Main. Although as I have said, I doubt very much that they could supply volume 2 alone and the low cost prohibits them from going to much trouble in your behalf.

If this gives you the information you desire, I should be very happy.

Very truly yours,

Secretary
